Our R & D

Our R&D Division is guided by the principles of effective teamwork and develops the concept according to the 21st Century through which they contribute to the overall strength of the Nigehban's organization. We have adopted the concept of compounding that form the core of our excellence and develop new technologies that can be applied around the globe.
The R&D division is the engine behind Nigehban's efforts to constantly produce innovative and high value-added compounding products to achieve our goal.

INNOVATION + QUALITY + ADDED VALUE

Nigehban® is expert in the fields it covers.

Our Philosophy

Our focus is to provide consumers with innovation premium quality products for their special personal care, through the Compounding Pharmacy.

We specialize in special care for skin, dental, children's and women's health & their disease related products.

Our Mission

We are team that provides:

1. Treatment option for special care.
2. Community service at affordable prices.
3. Support and enhance the research and development in the field of custom compounding.

We Provide

- The right drug
- To the right patient
- For the right disease
- At the right time
- With the right dosage
